 SATURDAY, JUNE 16, 1888

The public schools of Reno have been closed. The work of the year has been most satisfactory to patrons, and the teachers and pupils have well earned their vacation. As Reno grows so grows the interest in general education, and as the educational facilities increase, the town will have so much greater inducement to outsiders to make their homes here.

During the past year there has been a most healthy increase in the number of children of school age. The outlook is that Reno will soon have to add to her school facilities, because, the number of buildings going up and the growing demand for houses show that there is a continuing and most healthy growth in our population. To the public schools, the University, which has closed a most successful year, and Bishop Whitaker's School for Girls and Mount St. Mary's Academy, we are largely indebted for our past and prospective prosperity. Hence it is that whatever may be done to assist each and all of these is enhancing not only the interest of the town but adding to the welfare of the State. We say welfare of the State, because she is made up of parts, each of which depends on the other and the success of our educational institutions depends on the whole State. The patronage of the past show the State appreciates these educational advantages which grace our town, and judging from the past and present there is a growing feeling toward educating at home.

THE GAZETTE does not desire to dictate the policy of conducting the experiment station. Its able managers are equal to the work before them; but in the multitude of counsel there is wisdom, and as the creation of the station was intended to serve a national purpose, each citizen of each State, as well as every citizen in the United States, has the right to suggest anything that might serve the ends hoped to be attained. Nevada has an area of one hundred and twelve square miles. In that vast area there is every grade of elevation, from the comparatively low to ten thousand feet and more in height. This being true, there is a happy mean in various parts of the State where deciduous fruits would have a natural home, and in many of these places have been grown on a small scale, sufficiently, though, to ascertain the practicability of making fruit growing a specialty. Were the station to send out circulars to postmasters, assessors and leading citizens in every locality, containing such inquiries as might suggest themselves relative to fruit growing, sufficient data could be obtained for a most edifying quarterly report. We make the suggestion and hope it may be considered, and should it not be feasible, that some other plan may be formulated that will accomplish a similar end.

It is now asserted that there was "method" in the nomination of Thurman. A St. Louis Democrat, while enthused over the results of the convention, said it was all fixed to nominate Thurman in pursuance of a scheme the solid southern representatives had fixed up with the administration. Cleveland was to give the South the Secretary of State, and it was confidently expected, even hoped, that Thurman would die, making the Secretary of State Vice President, and thus realizing their desire that a southern man should be Vice President.

THE Clyde Mills at Providence, Rhode Island, have received orders for two million bandana handkerchiefs, and three hundred men have been employed to make them. It is an ill wind that blows no good. This article of commerce will soon glut the market. After the November election the bandana will sink into oblivion, and few only will be found that will admit they ever owned one.

PACIFIC COAST DISPATCHES.

Terrific Storms in Oregon.
 PORTLAND, June 16.—A disastrous windstorm and cloud-burst are reported at Arlington. Several buildings in the town of Lexington were wrecked. The house belonging to H. J. Brooks was blown down. Mrs. Brooks was fatally injured and soon died from the effects. The house and barn belonging to A. Perkins was totally wrecked. Mr. Perkins was very sick in the house and sustained very serious injuries. His little child received a blow on the head and was killed. Mrs. Perkins and two children were also injured. The school-house, containing pupils, was partially destroyed and several children injured, two feared fatal.

The Result of Gambling.
 SAN FRANCISCO, June 16.—William H. Stevenson, a Wells-Fargo messenger from Mojave to The Needles, is missing and his accounts are \$3,000 short. He wrote a letter to a friend, saying he had gone to sea. The Pacific Steamship Company, which had insured the young man's good conduct for \$5,000, is the principal sufferer, and has offered a reward of \$100 for his capture. Gambling is the cause of Stevenson's downfall.

LONG VALLEY.

A Rich and Prosperous Farming Section.

A Grown at the Management of the Nevada and California Railroad—Abuses which the Ranchers Complain of.

SPECIAL CORRESPONDENCE GAZETTE.

MILFORD, June 10, 1888.

EDITOR GAZETTE: A few weeks since your morning contemporary quoted a traveler, passing through Reno, as saying: "I cannot see what keeps Reno up." The scribe to whom the remark was made answered it with an allusion to the alfalfa fields surrounding the town, and incidentally mentioned the fact that a few head of cattle grazed on the surrounding hills. Had the traveler, or the scribe's reporter accompanied your representative through Long Valley, Sierra Valley, Honey Lake and Susan valleys, the former would never have made the remark attributed to him, nor the scribe given publicity to it. The many thriving ranches, substantial farm-houses, and the thousands of cattle and horses encountered, would have silently, but eloquently testified that Reno is not alone dependent upon the country surrounding the town site, but also derives sustenance and trade from a country whose great possibilities are as yet undeveloped and unknown.

Leaving Reno, a distance of ten miles is traveled before the first indication of a farming country is seen, but from Lemmon's (which, properly speaking, is not part and parcel of Long Valley) until Chamberlain's ranch is reached, the last in the valley, the traveler's observant eye is greeted with a succession of hay and grain ranches, the majority of houses on which attesting that their owners are prosperous, happy and content. An enumeration or description of the various ranches would occupy more space than the columns of the GAZETTE would admit of or the subject justify, and therefore your correspondent will confine his letter to facts, and not allow his enthusiasm to guide his pen into a descriptive channel.

WATER NEEDED.

In common with the majority of the residents of the sagebrush country the people of Long valley want water and want it badly. On every side from every rancher the cry is "water!" and is the all-absorbing topic of conversation. Owing to its absence the crops this year will be about one-half the average. Many of the farmers, who are not the fortunate possessors of springs, are undecided whether to cut their hay or not, and to listen to their "tale of woe" one would think that they were on the verge of ruin. But their faces belie their words, and an allusion to the grain crop soon restores them to good humor. The average rancher is a philosopher; he looks upon a bad year with complacency and is buoyed up with the knowledge that "it is a long lane which has no turning" and that the succeeding year will make good his losses of the present. Notwithstanding the fact that the ranchers are so liberal in their purchases of agricultural implements, and every year sees an additional acreage added to their possessions. With water within easy access Long valley would soon become one vast field of hay and grain, the product of which would feed the people of the entire Pacific Coast, and then leave a handsome surplus for export. Without it, great stretches of sagebrush-covered land separate the ranches, and is only valuable for the scattered pastures afforded to the herds of cattle and horses which roam the valley throughout the year.

The subject of water storage is discussed in all its bearings whenever the farmers chance to meet, and all take great interest in the bill introduced by Senator Stewart providing for a hydrographical and topographical survey and the establishment of a system of storage reservoirs throughout the arid west. In the opinion of your correspondent they will never live to see the fruition of their hopes. What is needed is an organized effort on the part of those interested, and with proper management the farmers themselves can accomplish the desired object with a small expenditure of labor and money. There are innumerable canyons and gulches in the mountains which either side of the valley wherein storage reservoirs could be easily constructed sufficient to impound the water necessary for the proper irrigation of thousands of acres of now valueless land, and from the opinions expressed by the farmers some such plan will undoubtedly soon be put into operation.

RAILROAD MATTERS.

At the time the subject of a railroad being constructed through Long Valley was broached, it met with the earnest support of the farmers, and the N. & C. management was met with open hands by those whose products would, by railroad communication, be of easy access to market. Now, alas! all is changed, and whether rightfully or wrongfully, the men who were lauded to the skies, are now the most thoroughly damned and cursed on God's footstool. Your correspondent has been three days "on the road," has interviewed nine-tenths of the ranchers who expect to or at present derive some benefit from the railroad, but he regrets to say that he has yet to meet a person who has one word of praise or defense for the N. & C. management. If one was to believe all his hears, the officials of the road are, in the opinion of the

ranchers, false to all promises, and ruthless destroyers of property. This is a rather strong way, probably, to express their feeling in cold type, but if their utterances were reported verbatim they would exhaust all the two-em dashes and exclamation points in a type foundry. The management are accused of petty meanness, which, if true, should result in the effective wailing of the official guillotine in places where it would do the most good.

In order that the railroad officials may better understand, if they do not already, the causes which have led to every rancher being the open and avowed enemy of the road, as well as to prove that the ranchers have good grounds for the position they have taken, I will mention a few abuses, which, if rectified, will restore good feeling and erase the receipts of the road. As to the manner in which the company has forced the right of way through ranches, dividing valuable and productive fields in twain, compelling the owners to accept whatever remuneration the officials choose to allow, nothing will be said in this letter, as the question is now in course of adjudication in the courts of this county (Lassen), but I will confine myself to matters which more directly interest Reno.

LACK OF MAIL FACILITIES.

The one great ground for complaint is the manner in which the mail for residents of Long Valley is handled. Up to within a few weeks ago the mail for the various ranches was put in one bundle, and delivered at points along the road most convenient to the people of that particular locality. For some reason, not given, this accommodating plan has been discontinued and the ranchers have to travel either to Reno, Chat, or Doyle's for their mail, in some cases entailing a distance to be traveled of twenty-four miles (twelve to the nearest postoffice and twelve back). The ranchers have pleaded,ajoled and threatened, but without avail, and in one case have offered to pay the company for the concession asked; in fact all the ranchers are willing to contribute to a fund sufficient to reimburse the railroad company for the trifling service of receiving and leaving mail at convenient points in the valley. Thus far their appeals have been made in vain, but they have not relinquished the fight and will probably petition the owners (Moran Bros.) for the much-desired boon.

Another good ground for complaint is the method adopted by the management for the delivery of freight. Nearly every rancher in the valley is either traversed by the road or the boundary line aligns the track, and the ranchers are of the opinion that the company could, with little trouble, deliver the freight at some convenient point instead of delivering it at Chats or at the end of the road, which is now most disadvantageously (?) situated for the delivery of manure proportions. The fruits of this policy will soon be garnered by the railroad company, but the profits of the crop will not occupy many lines on "the credit side of the ledger," as many of the farmers will be "backed up" with a debt, which it is to be hoped the N. & C. management will consider and act upon. View the question in any light you will, it is plainly to be seen that the interests of Reno or those of the ranchers are not subserved or the company's treasury benefited by the present policy of the management. For such a short line (55 miles) it undoubtedly has more enemies than any other road, in proportion to the population of the country traversed, than any other line in the world; in fact, as above remarked, a friend of the road has yet to be met by your correspondent. Whether the ranchers are right or wrong it is not for us to decide, but with the most friendly feeling to the N. & C. management, I will hazard the remark: "Where there is so much smoke there must be some fire." ROLBO.

Death of Justin Gates.

SAN FRANCISCO, June 16.—Dr. Justin Gates, a pioneer, and well-known in this city, died at his residence on Montgomery street, at 1:05 o'clock yesterday afternoon, at the age of sixty-one years. Deceased had been ailing for some time, and during the past few days grew rapidly worse. His death was unexpected. Dr. Gates was widely known in San Francisco and throughout the State, being a member of the Pioneer Association and a Knight Templar. He was elected from the Third ward to the Board of Supervisors preceding the present one and served two years in office, leaving a widow and four children—two boys and two girls—all grown. The time for holding the funeral has not yet been set.

Great Storm in the Sierras.

REDDING, June 16.—Severe storms and cloud bursts prevailed in the mountains Thursday afternoon and evening. The Howe trestle bridge at Castle Creek was swept away and the track was severed by a big slide at Nining Crossing. The overland train going north is waiting here, but the south bound train has not yet arrived.

Sheridan Meeting Well.

WASHINGTON, June 16.—There is no change in General Sheridan's condition. He rested well. The cough is troubling him very little. The pulse is good and respiration improving. He continues to take sufficient nourishment, which, apparently assimilates.

A San Francisco Hoaxer.

KANSAS CITY, June 16.—E. T. Plank, President of the San Francisco Typographical Union, has been elected President of the International Typographical Union, to serve two years.

OVER THE WIRES.

Preparing for the Convention.

Blaine's Friends Believe He Will Accept.

The Irish-American Vote—A San Francisco Printer Honored—Oregon Floods—Etc.

BOOMING FAVORITES.

Convention Gossip—Blaine and Sherman the Favorites.

CHICAGO, June 16.—The Republicans at Washington left the capital for this city on mass this morning.

There is a great deal of talk still heard about Blaine, and all sorts of improbable stories about the influence he is going to have on the convention are related. Some go so far as to insist that Blaine's friends intend to nominate him.

The New England delegation is coming. They started from Boston Thursday night. They are enthusiastic for Blaine. The delegation claim that the Maine statesman will not decline a unanimous nomination.

The impression is gaining ground that the story of a third letter from Blaine is correct in every particular, but that Blaine's friends are using their efforts to accomplish his suppression, as it would absolutely prevent his nomination, for which they are still working. The Pittsburgh Leader asserts that such a rumor exists, despite Chairman Jones' denial. Senator Sherman will not come to Chicago. He will remain in Washington during the meeting of the convention.

Benjamin Butterworth says: "I believe the wise course will prevail. Blaine's honor lies between himself and the nomination." After the two letters he has written would regard it as an indiscretion of his friends to crowd his name into the convention.

Major McKinley said: "Sherman is one of the 800 on the first ballot." He had every reason to believe the Ohio Senator would be nominated. In conclusion he said: "Blaine is out of the race. The platform will be squarely protection."

The Sherman men are beginning to be heard. They are confident, and in their boasts claim everything that is doubtful.

The Alger boom does not seem to be growing very rapidly. His friends are trying to make more noise than the Sherman men, but it is made upon a very small basis. Yet it cannot be denied that Alger is a powerful factor, and all delegates are buttonholed in Alger's interests.

Gresham will get about seventy votes in the first ballot and Harrison near fifty. The same argument is being used for Harrison and Gresham as that used at St. Louis for Gray—Indiana is a doubtful State and the candidate should come from there.

New Jersey will come here for Phelps, but the best information is that Phelps is meant for Vice-President.

The Irish American Vote.

CHICAGO, June 16.—Patrick Eagan, ex-President of the Irish National League and delegate at large from Nebraska, has arrived. He says that of the members of the Nebraska delegation, seven are for Blaine, one for Alger, and one each for Gresham and Sherman. He says: "Should no choice be reached after a few ballots, I should not be surprised if Blaine were then nominated."

Speaking of Ford's statement in connection with Blaine and the Irish-American vote, he said: "Of what is called Irish votes, to the number of about 70,000 in the State of New York, the greater part were given to the Republican ticket because it represented protection to American industry. Mr. Blaine would undoubtedly get votes that no other candidate would draw. However, any Republican candidate on a protection platform will poll a large Irish vote. They will not support free trade."

The Mullins Tunnel Repaired.

HELENA, Mont., June 16.—It is announced that trains on the Northern Pacific will again be running through the Mullins tunnel on Monday.

PLATFORM AND RESOLUTIONS

The following platform and resolutions were adopted by the Republican State Convention, which convened at Winnemucca on the 15th instant:

The Republicans of the State of Nevada, in Convention assembled, again express their loyalty to the principles of the Republican party, which have made this country so great and prosperous during the last quarter of a century.

RESOLVED, That the question of a sufficient supply of circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

That a diminishing quantity of money reduces the price of labor and property, enriches the creditor and impoverishes the debtor, and paralyzes industry and enterprise.

That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the national banks, without regard to the increase of population or the wants of the people, and which recycles gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to the national banks without interest, is subversive of the rights of the people, oppressive, unjust and should be repudiated.

That a financial policy whereby both gold and silver shall form the basis of the currency, whether the money used by the people be coin, or coin certificates redeemable in coin, or both, as convenient may require, is imperatively demanded.

That the attempt to substitute national bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people; that the money thus created, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonstrated the value of the revenue of the Government for private speculation, shocks the moral sense of the people and destroys respect for government and law. We demand that it be destroyed, and equal rights be restored to all the people.

We charge that President Cleveland is the willing tool or agent of a powerful money ring, which for the purpose of enriching the Government, borrows the revenues raised by a nation and uses them without the payment of interest or for the purpose of enhancing the value of bonds, and enriches bankers, while it depresses the price of labor and property.

That we favor the nomination of no man for President who is personally indebted in national banks or is a member of the House of Representatives, and we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

JOTTINGS.

Carpets at Emrich's.
Ladies', misses', and children's hats, bonnets and caps at Miss Gibbs'.
Lawn, embroidery, lace and handsome summer gingham at Emrich's.
Bob Christy is in the procession business. He has 10,000 small torches for the Fourth of July.
Honesty and fair dealing are essential to success. Havenor never buys nor sells goods that are short in weight.
If you want Thistle Dew whiskey go to Pinaiger, where you can get a supply that comes direct from a bonded warehouse.
The stranger's visiting town on inquiry will learn that C. J. Brookline's store is on Virginia street, south of Commercial Row.
The Pioneer Hotel was opened by a "forty-niner," but now it is run by M. Cooper, who will give a good meal or bed for twenty-five cents.
J. F. Aitken ever keeps a good stock of the best wood on hand, and now has a full supply of loc. If you want either give him your order.
Ladies' visiting cards, all styles at C. A. Thurston's fine as well as a fine assortment of all kinds of the very best stationery to be had anywhere in the market.
The Depot Hotel has an unabated run of customers, and will retain it as long as the house maintains the reputation given it by Parry & Fitzgerald.
J. J. Becker is a veteran in his business, and has the acumen to keep none but the best brands of beer, which he sets up with his unsurpassed lunches.
If patrons wish anything that C. A. Thurston does not have in stock, he sends for it—something he seldom has to do—because he carries a full variety in his line.
E. W. Crutcher has for sale ten or eleven head of fine gateway cattle. They are now at Lake's old ranch. Parties desiring to purchase can be informed as to price, pedigree and every other thing a purchaser should desire to know by applying to George Douglas on the premises. He has also a car load at the Sink of Carson which he also desires selling. All of these cattle are in first-class condition.

Will Plume.
Owing to the fact that the I. O. O. F. of Virginia City had made contracts, which were binding, before the move of the citizens to celebrate was made, they will not postpone the picnic. No one can claim that Order for their action, inasmuch as they have entered into legal obligations. Notwithstanding the action of the Order, there will be a grand time in Virginia City on the Fourth.

PERSONAL.

Clara Belle McDonald is at Lake Tahoe.
Bishop Leonard will arrive tonight from Salt Lake.
Mrs. E. B. Rall came up from Carson City last night.
Gilbert McOm Ross, formerly interested in the Dun Glen mines, is in town.
Miss Alice E. Dater, a former teacher in the public schools, is visiting Reno.
General Clarke came in from the east last night, whither he had been on professional business.
Mr. Corliss, baggage master on the C. P. R. R. at Sacramento, is visiting relatives in Reno to-day.
J. B. Williams, of Cherry Creek, who has been visiting Reno for a few days, will return home this evening.
Pat Reddy came up from Dayton last night, where he had been on business, and continued on to San Francisco.
Mrs. C. T. Bender and children went below last night to see the summer. C. M. Fasset, her father, accompanied them, and will remain two or three months.
O. O. Peck, Esq., who built the third house in Reno in 1888, is visiting relatives here after an absence of eighteen years. He is now engaged in mining in the Cour d'Alene country.
Engineer Winkler, of Virginia City, came in from Tuscarora last night, where he was engaged in making surveys for parties who own mining claims in which there are conflicting interests.

Closing Exercises of the High School.

The year just closed has been a particularly satisfactory one in the school, everything has worked in a harmonious manner, the progress of the pupils has been rapid and the number of promotions at the close of the term unusually large. That Reno's citizens are interested in the welfare of the school is evidenced by the manner in which they filled the buildings where the closing exercises of the different departments were given. The Baptist Church was filled to overflowing yesterday by an audience interested in listening to the programme given by the High School. This was given as published in the GAZETTE, the young people taking their parts in a highly creditable manner, especially when it is considered that much less time than usual has been spent in making preparations for the same, owing to the fact the pupils have been so busily occupied with the final examinations and the exhibit work. The programme was necessarily large, as three grades were represented, but was given smoothly and with no failures. The selections were all good. A patriotic dialogue and song, in which seven boys took part, and one by seven girls, were well acted, and the recitations of Misses Lizzie Williams, Flora Mallory, Lilla Remington, and that of George Bates being especially worthy of notice. An interesting feature was the reading of the graduation essays by Misses Edna Mason, Jennie McFarlane, Hester Calder, and Lella Bennett, the young lady graduates, who thus add to their school life. Rev. William Lucas, County Superintendent of Schools, then made an address to the pupils in general and the graduates in particular, giving them due praise, and wise counsel in pleasant, well chosen words.
After singing "America," by the school, and the pronouncing of the benediction by the Rev. Mr. Fisher, the audience dispersed, teachers and scholars separated with many a hand-shake and kindly word, all carrying with them, it is to be hoped, pleasant thoughts and memories of the year past, and hopeful anticipations of a joyful vacation and a happy reunion in the future.

Eastward Bound.
A GAZETTE reporter has been permitted to make a few extracts from a personal letter written by Mrs. Governor Stevenson, from Ogden, in which that lady says:
"So far we have had a lovely time. The weather is delightfully pleasant and warm. There are a great many pleasant people in the California delegation. At a meeting of the delegation yesterday (June 11th) Mr. Stevenson was invited to be a guest of the Californians and, consequently, we get many kind attentions. Hon. Creed Hammond has introduced us to many very pleasant people. Now we are wending our way to Salt Lake. We have taken a trip to the baths while our cars are being cleaned up. Food and drink of all kinds are free to all. It is very jolly and I wish you were with us. The Folies came on at Palisade and we are enjoying ourselves to the utmost."

The Wilber Company.
The Wilber Company are giving a week's entertainment to the citizens of Virginia City. The Virginia papers speak most highly of the ability of the company, claiming there is no marked difference in the talents of the performers. One evidence of the popularity of the troupe is that the longer they stay there the larger their houses. The same company will appear at McKiesick's Opera House on Monday evening, June 25th, with the "Planters' Wife." Tuesday night the "Galley Slave" will be produced and on Wednesday evening "Ten Nights in a Barroom."

State Land Office.
During the week ending June 15th eleven applications for State land were filed, embracing 2578 85 acres. Cash receipts: Payments on applications, \$619 72; payments on contracts, \$25 00; interest payments on contracts, \$61 81; total, \$716 63.

Horse Racing.
At the old race track on next Saturday there will be a series of running and trotting races, run by the local turf men of Reno. The races will commence at 2 o'clock P. M.

THE HAY QUESTION.

Some Practical Suggestions Worthy of Consideration.
At present no subject is more freely discussed on our streets, and none deserves more careful consideration by the ranchers of the Truckee Meadows, than the supply and demand, the probable price and disposition of their hay crop. Hay is the principal product of the valley, and may be made a staple commodity, with a certain annual demand at reasonable prices, or it may be rendered a "drug on the market," without demand or price. It can only be applied to one purpose, that of feeding stock, consequently its price must be regulated and fixed according to the value and price obtainable for the stock available for its consumption, if fed at home, or the price it will command if shipped abroad. If afforded at such prices as will warrant stockmen or dealers to feed or handle it, the Truckee Meadows need not in the near future fear over-production or "a glut in the market," but if held at prices which render it unprofitable for such purposes, then ranchers may rest assured that a real saleable, and parties who would use it must seek other green pastures or sources of supply.
With the interest of the valley and this farming community at heart, allow me to advise not to fix or quote hay prices in the act of your would-be patrons to look elsewhere for their supplies or compel them to sacrifice their stock rather than submit to prices which mean ruin to them.
Understanding the situation as I believe I do, I must say that I would regret to see the men on whose patronage and industries your products must depend for market. Remember that five or six-dollar beef cannot be fed on eight-dollar hay. Bear in mind that Nevada's beef is sold at a formidable competition from cheap meats in refrigerating cars from the broad prairies of Texas, New Mexico and Arizona. Do not forget that your interests and those of stockmen are mutual, and that if you cannot produce beef and mutton at prices which will bear a reasonable remuneration they must cease to be your patrons. Then, in order to build up and encourage those enterprises which pour coin into your purses, put your hay and pastures at the lowest prices that will reward you reasonably, and depend upon it your success is assured. Adopt the opposite course, and depend upon it you will kill or drive away the goose that lays the golden egg.
Should be Made Public.
Rumors are rife that burglars are getting in their work in Reno. If such is the fact it should be known so that all eyes could be turned in the direction of ferreting out those midnight fiends, who usually enter a house with the mental reservation that they will take life rather than be detected. Again, if they make a successful raid, the eyes of town or country community, or both, are turned to the alert, to spot suspicious characters, note their doings, and often the information thus gained secures detection. When the fact of a crime is known the criminal has to evade all eyes. While it is kept a secret he has only to know the officers, watch their action and if they do not tumble by some indications of suspicion, the predators put on a bold front to mislead them. The ends of justice, except in very peculiar cases, can better be subserved by giving publicity to crime than by not doing so.

Got His Man.
Sheriff Wood, of Lassen county, California, came to Reno on the hunt of a man by the name of Bury, against whom the charge of obtaining money under false pretenses is pending in that county. The amount of money obtained was some two or three hundred dollars.

Sheriff Wood, through the assistance of Constable Upson, got track of his man, and the two got a private conveyance and started toward Virginia City, and overtook him near the Wind Mill on the Geiger grade. They returned with him to Reno. Bury stopped at the Hotel de Flint till this morning when, in company with Sheriff Wood, he resumed his travels to Lassen.

Taking a Rest.
President Brown of the University, will leave to-morrow evening for a trip to Honolulu. He will sail on the 17th instant. He goes for the purposes of health, rest and to observe the workings of the schools there; also to visit his old time friend, John H. Putnam, of Chillicothe, Ohio, who is now the American Consul to the Hawaiian government. He will be absent about a month.

Ample Supply.
The Artesian well recently bored for the Central Pacific Railroad Company at Battle Mountain has furnished an ample supply of water for their tank. They have put a steam pump on it for the purpose of raising the water into their large tank that stands near the track, into which a gallon of water per second can be forced.

Insurance Paid.
Yesterday H. Sample, Recorder of Nevada Lodge No. 5 A. O. U. W., received a draft on San Francisco from the Grand Receiver of the jurisdiction of Nevada of the order for \$2,000, due Mrs. Julia Reese, as insurance on the life of her late husband, Phil Reese.

Open House.
Lord & Thomas, a large advertising agency of Chicago, will keep open house for all the representatives of the press during the convention, and have sent out invitations for them to call. All visitors will have access to the files of the papers published in this country.

BREVITIES.

Local and General Intelligence.
Goldenson says he is prepared to die.
Salt Lake is full of tramps and toughs.
Winter rye is looking well in Humboldt county.
Elko rejoices in the possession of a steam fire engine.
After paying all expenses for May, Con. Virginia carries over a net surplus of \$120,000.
The GAZETTE is under special obligations to Mrs. Alf. Doten for the report of the public school exercises.
There will be a meeting of the Twilight Minstrels at the Nevada Theater to-morrow afternoon at 2 o'clock.
A sharp earthquake, accompanied by a rumbling noise, was felt at Janesville, Lassen county, last Tuesday.
The net product of Hale & Norcross for May was \$141,921.21. Nearly 50 per cent of the bullion output was gold.
An Italian with a trained cinnamon bear paraded the streets to-day much to the amusement of the young and old boys.
Washoe lake has been invaded by an immense flock of pelicans. Since the arrival of the pelicans the catfish have taken to the tails.
The School Trustees of Reno met this afternoon to engage teachers for the ensuing year. At the time of going to press they were not through with their labors.
George Rickard, a miner, lately from Eureka, in this State, was drowned in Wood river, Idaho, last Tuesday. The razor in which he was drowned was found upon him while fording the river.
Various parties in Paradise valley, among whom is E. W. Crutcher, have made arrangements for boring artesian wells. They have purchased machinery and will commence operations soon.
One of Reno's itinerant citizens was ordered to move on by the police yesterday. He declined on the ground that he had no money and couldn't pay his fare out of town, and was too lame to walk.
The people of Franktown are still howling because they do not get their newspapers by mail regularly. What is the matter with the postal service on that route? Will complaints have to be laid at headquarters before it becomes efficient?

In our criticism of the play "Ramona," we failed to mention that the stage was under the management of our townsman Mr. J. B. Titus, who filled the position ably, and much credit is due him for the masterly manner in which he conducted the play.

The three men who murdered John Lowell, the El Dorado county (Cal.) rancher, and buried his remains in a cellar on the ranch, Henry Myers, John Olson and William Drager, have been arrested. There is no question as to the guilt of all, but who originated the plot is a matter of mystery yet.

Church Notices.
BAPTIST CHURCH—Services at the Baptist Church to-morrow morning and evening. Rev. C. L. Fisher, Pastor. Subject for 11 A. M., "The Risen Lord; or, The First Resurrection Sabbath." Sabbath School at 12:15 P. M. Subject for 7:30 P. M., "A Real Christ." Prayer meeting Thursday evening at 7:45.
METHODIST CHURCH—The Rev. J. H. DeLaMotte will hold services in the Methodist Church to-morrow at 11 A. M. and 7:30 P. M. Sunday school at the usual time.

EPISCOPAL CHURCH—Bishop Leonard will officiate at the Trinity Church to-morrow. Services at 11 A. M. and 7:30 P. M. Confirmation will be administered in the evening.
CONGREGATIONAL CHURCH—Services to-morrow at 11 A. M. and 7:30 P. M., conducted by the pastor, Rev. T. Magill. Subject in the morning, "The Wants of the World." Sunday School at 12 M. The public cordially invited.

'Penny Wise and Pound Foolish.'
That's what men are who plod along trying to do their business when they feel half dead. Their eyes are dim and throbs; their head aches; the children annoy them; their wives lose their charms; they lose their ambition; they make mistakes in their accounts, and the whole world looks blue; they hate themselves and everyone else. And why? If you feel so, why don't you stop and think a minute—or are you too stupid? Your liver and blood are out of order; that's all. You need a good regulator and tonic. Take a bottle of Dr. Pierce's Golden Medical Discovery, and you will feel like a new man. In three days your wife will be the prettiest and sweetest woman in the world; your children's dispositions will be exactly as you want; your business will improve; and you will make money enough to pay for the Golden Medical Discovery a hundred times over. Don't be stubborn, bury it.
If you suffer from cold in the head, or from Nasal Catarrh, use Dr. Sage's Catarrh Remedy. It cures when everything else fails.

Electric Bitters.
This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and all other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price 50 cts. and \$1 per bottle at Hodgkinson & Co.'s drug store.

Thousands of Dollars.
Are spent every year by the people of this State for worthless medicines for the cure of throat and lung diseases, when we know that if we would only invest \$1 in Santa Able, the new California discovery for consumption and kindred complaints, they would in this pleasant remedy find relief. It is recommended by ministers, physicians and public speakers of the Golden State. Sold and guaranteed by Osburn & Shoemaker at \$1 per bottle. Three for \$2.50. The most substantial case of cancer will speedily succumb to California Cat-R-Cure. Six months' treatment for \$1. By mail \$1.10.

SIDES RETURNED.

He Reports All Quiet at the Pyramid Reservation.
Johnson Sides, who left the Reservation yesterday, reports all quiet there, and that the Indians are all satisfied with the action of the Government in the case of Willie Dunn, the murderer. Captain Sam and Johnson Sides staid with Mack Winnemucca, a brother of the deceased while at the Reservation. Johnson reports that when Marshal Kelly and party arrived at the Reservation Mack Winnemucca, a brother of deceased, Winnemucca John, an uncle, Mowa Jim, Big Jim and Tom King were speaking, saying that a long time ago Old Winnemucca had said that they must be obedient to the State of Nevada and to do right to the citizens and not abuse them, and that these instructions should be obeyed; that when their friend Tom Kelly, United States Marshal, came down after Willie Dunn, they must give him up. Mack Winnemucca said that he was satisfied to have Tom Kelly to come down and take him, because he knew he would have him tried before a judge. The murderer was evidently a malicious one. As represented, Willie Dunn was drunk when he went to the Reservation, and walked up to Charlie more in fun than in anger; that at no time previous was there a quarrel; that Charlie had, at the Reservation House, dismounted and rode up to the Indian Court for a year; that he had been thinking of killing him at the last gathering at the Reservation, but for the want of an opportunity gave it up. Johnson says all the Indians say it was a wanton, cold-blooded murder.

CLOSING EXERCISES

Of Bishop Whitaker's School.
The accommodations in the school building having been found inadequate to meet the requirements of Commencement day, a change has been made in the usual time and order of exercises as follows:
Written examinations, June 13th, 14th, 15th and 18th.
Tuesday, June 19th, at 9:30 A. M.—Public examinations in history, Latin, geometry, primary United States history, literature and mental arithmetic.
INTERMISSION.
At 2 o'clock, P. M.—Literary and musical programmes, including spelling matches, essays, recitations, and the awarding of home prizes.
Paintings, drawings, samples of neat work, maps and penmanship will be exhibited in the school parlor on Tuesday.
Wednesday, June 20—No exercises during the day.
The twenty-eighth rehearsal of the Department of Music, combined with Commencement proper, will be on Wednesday evening in McKiesick's Opera House, at 8 o'clock.
Box sheet now ready at Bootof's store.
Admission fifty cents. No extra charge for reserved seats.

Ask for Fryer's Abietene Cough Balsam.
Take no other. It is the most pleasant and best Cough and Lung Remedy in the world. (It contains no Opium.) Price, 75 cents. Sold by W. P. Pinaiger. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

The life-giving properties of Ayer's Sarsaparilla have established its well-earned reputation and made it the most effective and popular blood purifier of the day.
For all diseases of the stomach, liver and kidneys, this remedy has no equal. Price 50 cts.
Asthma and Phthisis are instantly relieved by taking a few doses of Fryer's Abietene Cough Balsam. (It contains no Opium.) Price, 75 cents. Sold by W. P. Pinaiger. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

Care for Sick Headache.

THE CASTORIA COMPANY, 17 Murray Street, N. Y.

250 BEAUTIFUL LOTS FOR SALE!

From \$200 to \$600!

A Rare Chance for Investment and a Home.

THE MOST LOVELY PORTION OF RENO.

FACING THE TRUCKEE-THE ARISTOCRATIC RIVERSIDE AVENUE DRIVEWAY-SPLENDID SEWERAGE-HEALTHFUL LOCATION AND SAFE FROM FIRE.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town, this addition faces the beautiful Truckee River, and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is, it is more exempt from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before buying elsewhere, Parties will do well to look at these Lots.

Constipation

Causes, directly or indirectly, fully one-half the sufferings which afflict mankind. It is usually induced by inactivity of the liver, and may be cured by the use of Ayer's Pills. C. A. Schomerus, Great Bend, Kansas, writes: "I have used Ayer's Pills for Constiveness, with the most beneficial results." J. Windholm, Newark, N. J., writes: "Ayer's Pills cured me of chronic Constipation." Martin Koch, Huntington, Ind., writes: "Last year I suffered much from Biliousness."

And Headache

After using one box of Ayer's Pills I was quite well." C. F. Hopkins, Nevada City, Mo., writes: "I have used Ayer's Pills, and think they are the best in the world. They have cured me of Sick Headache and Neuralgia." W. L. Page, Richmond, Va., writes: "I have been a severe sufferer from Headache. Ayer's Pills afford me speedy relief." A. J. Forster, Dauphin st., Mobile, Ala., writes: "For a number of years I have been troubled with Constipation and Headaches. After trying a number of so-called Liver Invigorators, without benefit, I was at last

Cured by Using

Ayer's Pills." Rev. Francis B. Harlowe, Atlanta, Ga., writes: "For years I was subject to Constipation, from which I suffered increasing inconvenience, in spite of the use of medicines of various kinds. Some months ago, I began taking Ayer's Pills. They have entirely corrected the costive habit, and have vastly improved my general health." Hermann Brinckhoff, jewelry engraver, Newark, N. J., writes: "Constipation, induced by my sedentary habits of life, at one time became chronic and exceedingly troublesome. Ayer's Pills afforded me speedy relief, and their occasional use has since kept me all right." Ed. O. Easterly, Rockford, Ill., writes that he has been cured of chronic Constipation by the use of

Ayer's Pills.

Sold by all Druggists.

MODERN CRUSOE.

Modern Yarns that Should be Told to the Mariner.

A New York contribution to the columns of the Boston Globe relates the following interesting and roman-tic story:

A few days ago, a man about 60 years of age, with the appearance of an old farmer, and very taciturn, registered at the Sinclair House, under the name of Ezra W. Forman, Nomora, Pleiades group, Pacific Ocean. Conversation shows him to be a very intelligent man. He tells a wonder-ful tale. He says in substance that the year 1847 the ship Ocmulgee of Wareham was homeward bound with full load, tryworks overboard, and trials and kegs of oil stowed in every ton. After leaving Lahaina, S. I., October 7th, with 350 barrels sperm, 3,250 barrels of whale oil, and 41,000 pounds bone, she was never heard from. Forman was boat-steerer. He claims he is the sole survivor, and states that the ship was wrecked on Nomora, an island in the Pleiades group, and gives the fol-lowing romantic story of the wreck:

"The Ocmulgee went ashore on Nomora in December, 1847, and all hands were down excepting myself, Martin, the cook, and an Hawaiian sailor named Weibee. All the oil-casts were stove, and the ship grad-ually hove over the reef, until finally the survivors could walk around her at low water.

"Through the Hawaiian I was enabled to talk with the chief of the island. I explained the uses that might be made of the various articles, and assisted by natives got every-thing out of the ship, including the bone, and then broke up the ship, saving planks, nails, anchors, chains and whaling gear.

"We were given houses, lands and wives, accepted our position and de-termined to make the best of it, and, except that we were exiles from home and friends, were content and happy. I taught the natives many of the rud-er arts, and they prospered great-ly. But the natives feared to lose us, and when a ship came in sight hur-ried us away into the interior until the foreign vessels had passed on.

"Later my two companions died and I was left alone. Surrounded by my children and grandchildren, I was finally acknowledged to be their ruler, and my word was their law. I told them I must go to my friends, but had to swear by their gods that I would return. Finally a sandal-wood trader touched there, I em-barked in her, was landed at Sidney, and made my way there after much trouble and time."

Such is Forman's story. Now comes another remarkable tale. He says that the whalebone is in prime condition, and from the time of its wreck to the present day a whale has always been on guard over it, and that regularly once a week its po-sition has been shifted to save it from rats and mold. Forman says that his two companions left a number of children, who now are all big and healthy, and that he has twenty-nine sons and daughters and sixty-nine grandchildren. Some Philadelphia merchants have taken stock in Forman's story, have advanced him \$5,000-worth of goods, chartered a steamer and will soon leave New York for the Pleiades, to carry out this modern Alexander Selkirk and bring back the bone, estimated to be worth now from \$150,000 to \$175,000.

The story is a romantic one, and the appearance of Forman carries truth with it; but a Nantucket gen-tleman, to whom the tale has been submitted, who is conversant with whaling matters doubts it from first to last, and advises the merchants, responsible ones, by the way, to examine Forman and his story very carefully before accepting its truth. The gentleman who has advised on the matter says there never was a ship Ocmulgee of Wareham in the whaling business that was lost. The only whaler of that name was owned in Holmes Hole, and sailed repeatedly from that port from 1844 until, in 1855, she was burned by the Confederate cruiser Alabama. There are also other se-rious discrepancies in Forman's statement, among which is the pro-portion of whalebone to the propor-tion of oil taken, and although his yarn is ingeniously twisted, yet it is full of flaws and apt to strain on ex-amination, and the inference is, un-less he can reconstruct his story with a new name for the ship that is ac-ceptable, he is a crank or a cheat of the worst sort.

Varieties.

A shoe manufacturing company is not a soleless corporation.

J. M. Morton has written a play entitled "Triplets."—(Ex. It is a domestic tragedy.

The front steps are deserted now. The season has passed when she stoops to conquer.

The Cincinnati "Commercial Ga-zette" speaks of a pettified girl. She was probably rocked too much in her infancy.

Hymn to be sung at the obsequies of a gentleman who didn't know it was loaded: "A charge to keep I have."

An exchange says: "Count de Cernapoli, an Italian nobleman, tired of living, has committed suicide." We would imagine that it must be very wearisome grinding a hand-organ all day.

"You are now one," said the min-ister to "the happy pair he had just tied together. "Which one?" asked the bride. "You will have to settle that for yourselves," said the clergy-man.

Trying to chew chocolate caramels with false teeth, and essaying to un-tie fast-knotted shoestrings with dog-skin gloves on, is very like trying to do business without advertising.

Annals of a Quiet Neighborhood

Suburban Belle—How delight-ful it must be to spend Christmas in a great country house, like Stilton Grange, for instance.

Delightful Stranger (from London)—Yess. By-the-by, her grace, Stilton has just written to say she expects me there for Christmas week. S'pooe I shall have to go!

Suburban Belle—Won't you find it rather lonely?

Delightful Stranger—Lonely! A-why?

Suburban Belle—Because I saw in to-day's Morning Post that the duke and duchess, and family are not ex-pected back from Australia before February. (Collapse of delightful stranger.—(New York Commercial Advertiser.

PROFESSIONAL.

M. A. GREENLAW,
